

REG ATHWAL'S SPEAKER PREFERENCES

For the event organizers

Reg knows what is required to get his presentation delivered with class and perfection ensuring maximum impact and great results for the audience. The good news is he doesn't require much. The following is a list of his ideal requirements and preferences. Reg is committed to doing his best presentation for you. If some of the following is difficult to arrange then let us reach some compromise and ensure the presentation is not sabotaged because of ineffective room setup.

ROOM & AV SET-UP

1. Reg wants to connect with his audience so positioning the front rows seats within 3-5 metres of the platform would be ideal with steps leading down to the ground seating level.
2. Reg rarely uses a podium to present. He requires a small table or can make use of a podium for his notes. Reg's preference is to make use of the entire platform and floor space as he connects with the audience.
3. Reg has a preference of having the house lights at a medium level and not at full glare. Reg wants to create an atmosphere of openness leading to optimum sharing and listening.
4. Reg prefers a spotlight and at least two wireless hand-held microphones to be used when connecting with individuals from the audience; for audiences of 500 and plus.
5. Reg prefers a wireless (tie clip) microphone.
6. Reg occasionally uses power-point for keynotes and presentation lasting more than 1-hour. He would prefer a projector screen to be positioned to the left or right side of him, instead of directly behind him.
7. Reg drinks a lot of water when speaking for more than 1-hour. He prefers still water – a full jug of normal water or one bottle of still is perfect.
8. Reg likes to connect with his audience after his presentation and meet anyone for any questions at a dedicated speaker table. He would prefer a table set-up at the back of the room for his CD, books, tapes, free RAW GOLD CARD membership applications and autographs.
